

A young man with curly hair, wearing a dark t-shirt, is shown in profile, looking upwards and to the right. He is standing in a wood processing factory, with his hands on a large piece of wood on a machine. The background is filled with industrial equipment, including a large vertical machine with a control panel and various papers attached to it. The lighting is warm and focused on the worker, with the rest of the factory slightly blurred.

Journalier

Opérateur de machine à jointer le bois

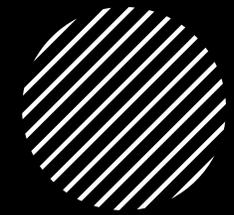

Tâches principales

- Alimenter la jointeuse à bois
